AMR SUBJECT HEADINGS

FOUNDATIONS AND BASIC METHODS IN MECHANICS

- Continuum mechanics
- Finite element methods
- Finite difference methods
- Other methods in computational mechanics
- Modeling
- Experimental system analysis

DYNAMICS AND VIBRATION

- Kinematics & dynamics
- Vibrations of solids (basic)
- Vibrations (structural elements)
- Vibrations (structures)
- Wave motions in solids
- Impact on solids
- Wave motion in incompressible fluids
- Wave motion in compressible fluids
- Solid-fluid interaction
- Astronautics (celestial & orbital mechanics)
- Explosions & ballistics
- Acoustics

AUTOMATIC CONTROL

- Systems theory & design
- Optimal control systems
- Systems & control (applications)
- Robotics

MECHANICS OF SOLIDS

- Elasticity
- Viscoelasticity
- Plasticity & viscoplasticity
- Composite material mechanics
- Cables, ropes, beams, etc.
- Plates, shells, & membranes
- Structural stability (buckling, postbuckling)
- Electromagneto solid mechanics
- Soil mechanics (basic)
- Soil mechanics (applied)
- Rock mechanics
- Material processing
- Fracture processes
- Fracture mechanics
- Experimental stress analysis
- Material test techniques
- Structures (basic)
- Structures (ground)
- Structures (ocean & coastal)
- Structures (mobile)
- Structures (containment)
- Friction & wear
- Machine elements
- Machine design
- Fastening & joining

MECHANICS OF FLUIDS

- Rheology
- Hydraulics
- Incompressible flow
- Compressible flow
- Rarefied flow
- Multiphase flows
- Wall layers (including boundary layers)
- Internal flow (pipe, channel, Couette)
- Internal flow (inlets, nozzles, diffusers, & cascades)
- Free shear layers (mixing layers, jets, wakes, cavities, & plumes)
- Flow stability
- Turbulence
- Electromagneto fluid & plasma dynamics
- Naval mechanics
- Aerodynamics
- Machinery fluid dynamics
- Lubrication
- Flow measurements & visualization

THERMAL SCIENCES

- Thermodynamics
- Heat transfer (one phase convection)
- Heat transfer (two phase convection)
- Heat transfer (conduction)
- Heat transfer (radiation & combined modes)
- Heat transfer (devices & systems)
- Thermomechanics of solids
- Mass transfer with & without heat transfer
- Combustion
- Prime movers & propulsion devices (systems & applications)

EARTH SCIENCES

- Micromeritics
- Porous media
- Geomechanics
- Earthquake mechanics
- Hydrology, oceanography, & meteorology

ENERGY SYSTEMS AND ENVIRONMENT

- Fossil fuels
- Nuclear systems
- Geothermal systems
- Solar systems
- Wind energy systems
- Ocean energy systems
- Energy distribution & storage systems
- Environmental fluid mechanics
- Mechanics of hazardous waste containment & disposal

BIOSCIENCES

- Biomechanics
- Human factors engineering
- Rehabilitation engineering
- Sports mechanics

PUBLICATIONS SCANNED FOR AMR

AMR covers in its field technical journals, reports, books, symposia and annuals. The list of publications includes all serials received regularly.

Titles are listed alphabetically in the form in which they appear on the journal. All articles and prepositions have been included except for those which begin a title. The list does not contain any cross-references. The origin of the publication is listed following the title of the publication unless the title indicates the city and/or country of publication. Where the city does not appear as a part of the title, then the city is shown, followed by the name of the country if the city is not well-known.

ANNUAL INDEX

Sharma (R.K.), ks formulation, oblateness, orbit mechanics, perturbation methods, regularization, two body problem, *6877*
Sharma (R.N.), conical flow, experimental results, wall jets, *1575*
Sharma (S.), buckling, composite structures, laminates, plates, Iyengar (N.G.R.), (et al.), *287*
- composite materials, laminates, plates (anisotropic), Iyengar (N.G.R.), (et al.), *7342*

Sharma (S.D.), see Gai (S.L.), *3725*
Sharma (V.D.), compressible flow, dissociation, nonequilibrium flow, *2619*
- mathematical models, nonequilibrium flow, shock waves, shock waves (attached), *5419*
- compressible flow, discontinuities, dissociation, gases, *6710*
- compressible flow, discontinuities, nonequilibrium effects, thermodynamics, Singh (R.S.), *7780*
- characteristic methods, discontinuities, dissociation, gases, Sharma (J.), (et al.), *9636*
- see Menon (V.V.), *10759*

Sharon (A.), explosions, film boiling, fuel-coolant interactions, shock tubes, Bankoff (S.G.), *10719*
Sharpe (W.N.) Jr., see Bagaria (W.J.), *2479*
Shashaty (A.J.), bending, cables, design, resistance, *4552*
- cables, ocean bed, torsion, underwater structures, *9256*

Shashkov (A.G.), mathematical models, thermocouples, thermophysical properties, *8680*
Shatalov (I.K.), axial compressors, blades, pressure distribution, strain gages, surge, velocity measurement, *8657*
Shatalov (S.D.), see Khodzhaev (K.Sh.), *4990*
Shatokhin (S.N.), bearings (gas lubricated), discharges, loads, lubricants (gas), lubrication (hydrostatic), Kodnyanko (V.A.), *9969*
Shaub (H.), internal combustion engines, lubricants (liquid), temperature, viscometry, Murphy (C.K.), *3757*
Shavaliev (M.Sh.), diffusion, mixtures, navier stokes equation, poiseuille flow, *10672*
Shaw (J.), blades, dynamic response, rotors, vibration, Albion (N.), *2337*
Shaw (L.M.), aerodynamic interference, axial fans, noise (aerodynamic), turbofan engines, wakes, Glaser (F.W.), *7894*
Shaw (M.C.), cutting, extrusion, forming, materials properties, plastic flow, *3429*
Shaw (M.T.), cold working, constitutive equations, forming, polymers, survey, yield condition, *2396*
Shaw (P.T.), see Csanady (G.T.), *8033*
Shaw (R.), see Abu-Ghannam (B.J.), *2633*
Shaw (R.H.), see Anand (S.C.), *80*
Shaw (S.J.), see Kinloch (A.J.), *542*
Shay (W.A.), finite difference methods, internal flow, navier stokes equation, two dimensional flow, vorticity, *4586*
Shchelkachev (M.V.), dispersion relation, electro fluid dynamics, perturbations, taylor instability, theory, *3890*
Shchennikov (V.V.), see Byrkin (A.P.), *8568*
Shchepetov (S.V.), see Kovrizhnykh (L.M.), *11838*
Shcherbak (S.B.), see Melikhov (O.I.), *5539*
